Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

The property was most recently observed and photographed on January 17, 2003. Its condition appeared to be unchanged since the preparation of the Inventory Form for State Historic Sites Survey form in the library of the Maryland Historical Trust.

The property is described in Maryland Historical Trust Inventory Form for State Historic Sites Survey prepared by Natalie Shivers, Harford County Historical District Commission, in September 1979. Following is a brief summary of that property description, as modified by site observations made January 17, 2003.

From the description, the three outbuildings are wood framed, gabled roofed (east to west). The westernmost barn is two stories with vertical board siding and a monitor roof. This barn is two bays wide and two bays long and opens to the south. The other two buildings are one story and have board and batten siding and opens to the

south. The easternmost barn also has a monitor roof. The south side has the main entrance and the west end has entrance wood porticos/porch. Fenestration had been 6/6 sash windows with wood and stone lintels. The windows are presently covered with wood boards. It was observed that, with the exception of the covered windows, this property appears virtually unchanged from the description in the attached form.

The property is not associated with any event or personage that would qualify it for eligibility under Criteria A or B, respectively. Although the buildings remain in relatively good condition and are representative examples of ancillary rural buildings of their age, their design and construction do not merit consideration for historic registration under terms of Criterion C. No known archaeological significance is associated with the property, making it ineligible for consideration under Criterion D.
